

## THE WESTERN CANADIAN INSULIN PUMP CENTRE WINTER NEWSLETTER

### WESTERN CANADIAN INSULIN PUMP CENTRES

The staff of the Western Canadian Insulin Pump Centre hopes that you all enjoyed your winter holidays. You can now also find us on facebook! If you have a facebook account, please become a fan of our company and comment on how pump therapy has changed your life.

The Western Canadian Insulin Pump Centre is working to expand its role in educating other health care professional about the Insulin pump and Sensor. Over the last two years, our staff has become experts with the sensor technology and will provide you with the stepping stones to use this effective management system.

### INTERNET BLOOD GLUCOSE MONITORING

A great new years' resolution should be to better manage your blood sugar levels. Signing up for the Internet Blood Glucose Monitoring System is the perfect way to do that, and it is easier to do it now more than ever. Starting April, MSP will now cover the price of our internet service. Our latest study showed that the continuous use of our internet service can lower your A1c by more than 1% over 6 months. Fulfill that new years' resolution and sign up today.

Our IBGMS service allows for ongoing

If you do not wish to receive future newsletters, please phone or email our Administrative Assistant Marina at [marinac@insulinpumpcentre.com](mailto:marinac@insulinpumpcentre.com)

contact with the doctor through the Internet. There is now a new USB Meter (Bayer Contour) which allows for testing of blood glucose and uploading of meter data onto the computer, both PC and Mac.

If you are interested in learning how to better manage your sugar levels and decrease your A1c level, please contact us about our Internet Blood Glucose Monitoring Service.

### INSULIN PUMP AND SENSOR

The Veo Sensor made by Medtronic was released quite recently. It boasts new features such as the Low Glucose Suspend feature that halts insulin infusion when glucose levels are too low. If you are interested, please contact Medtronic and ask about the Veo.

The clinic offers a structured follow-up program for patients on an insulin pump. Our upcoming follow-up dates are:

- January 21, 2011
- March 11, 2011
- May 13, 2011

Please call us at 604-684-2025 to book your appointment.
